Information for Contributors

Authors should send their contributions directly to the Contributing Editor, Editor, or Software Editor whose field of interest is most closely related to the subject matter. Only papers not previously published will be accepted and authors must agree not to publish elsewhere a paper submitted to and accepted by the Journal. Whenever possible authors are requested to submit their manuscripts in English so as to minimize editorial costs. However the Editors recognize that some manuscripts will be submitted in French or German, and the Journal is prepared to publish such papers. Brief notes will also be published as will discussions of papers. From time to time special review articles will be invited from outstanding authorities in various specialties.
